

# ENVIROGLAS® ECO-MISSION STATEMENT

AT ENVIROGLAS, WE TAKE OUR LEADERSHIP ROLE IN ENVIRONMENTAL MANAGEMENT VERY SERIOUSLY. WE ENSURE OUR MANUFACTURING PROCESSES AND FINISHED PRODUCTS ARE COMPATIBLE WITH LONG-TERM SUSTAINABILITY, WHILE ENCOURAGING ALL ENTITIES OF BUSINESS AND GOVERNMENT TO COMMIT FISCALLY TOWARD RECYCLING, RECLAIMING AND REDEVELOPING THEIR LANDFILL BOUND ITEMS INTO SUSTAINABLE PRODUCTS FOR FUTURE GENERATIONS TO COME. ENVIROGLAS NOT ONLY CARES ABOUT CREATING A BEAUTIFUL, HIGH QUALITY PRODUCT BUT MORE IMPORTANTLY IS COMMITTED TO LEAVING THE SMALLEST HUMAN FOOTPRINT POSSIBLE ON THE EARTH.

## *ENVIROGLAS...*

- *Recycles a waste product by utilizing 100% pre and post consumer glass and porcelain.*
- *Reduces waste in landfills by reclaiming pre and post consumer glass and porcelain.*
- *Conserves natural resources by utilizing recycled glass and porcelain as opposed to marble mined from the earth.*
- *Contributes to a healthy, safe indoor environment by using an epoxy resin matrix that has zero volatile organic compound emissions. And is non-hazardous, non-carcinogenic, non-odorous and non-flammable. Plus, requires no harsh chemicals to maintain, simple soap and water or neutral PH cleaner.*
- *Saves energy and water. EnviroGLAS environmentally friendly floors require daily maintenance of only dry mop and weekly buffing, saving water, electricity and people-power. Using EnviroSCAPE glass and porcelain aggregate as mulch helps retain moisture in the soil and reduces water evaporation.*
- *Can reduce greenhouse gas emissions. EnviroGLAS is manufactured on-site, minimizing post-commercial waste and transportation costs. Furthermore, EnviroGLAS has the ability to use glass and porcelain from local recycling programs and local manufacturers.*
