

## EnviroGLAS Launches Custom Sample Webpage

*EnviroGLAS Products Inc.  
For Release May 17, 2005*

EnviroGLAS Products, Inc. of Plano, TX today launched its Architect & Designer 'Custom Sample Order' Webpage at <http://www.enviroglasproducts.com/sample2.html>. EnviroGLAS is the newest trend in decorative, eco-friendly, sustainable finishes, bringing the look of vivid gems embedded in seamless, glossy terrazzo to floors, countertops and other decorative surfaces. With a choice of cobalt blue, amber, green, mirror, plate, flint, or a mix of several colored glass varieties and epoxy matched to any color swatch, samples are a must.

"The photos on the website are beautiful, but there's nothing like having the sample in my hand to help me make a decision," said Donna Spillers, principal designer at Design International. "I had an idea in my head of what my color and glass options would look like. The ability to request the exact paint number and aggregate mix allowed me to actually hold the real thing next to the wood and stain selections we've already made. Now I know the project will be just what I want. And I love the idea of being able to order the sample on line rather than placing a phone call," she added.

One of the new items for which architects, designers and homeowners can order samples online is a custom EnviroSLAB countertop. The recently unveiled EnviroSLAB is a standard 25" x 60" x 1" size countertop that brings exquisite 100% recycled glass terrazzo into an affordable price range for anyone remodeling or constructing decorative surfaces and countertops.

Landscapers, interior decorators, designers and homeowners are invited to go to [www.enviroglasproducts.com](http://www.enviroglasproducts.com) for detailed product pricing, installation guidelines and ordering instructions.

EnviroGLAS® Products Inc. converts post-consumer and industrial glass bound for the landfill into elegant, sustainable and ecological hard surfaces and landscaping materials. A recent independent analysis found that of the 69 LEED points available, EnviroGLAS Terrazzo can contribute to seven or more. Please visit [www.enviroglasproducts.com](http://www.enviroglasproducts.com) or contact an EnviroGLAS Products Representative at (888) 523-7894 or email us at [info@enviroglasproducts.com](mailto:info@enviroglasproducts.com).
